1 Power Supply

Method 1: DC Adapter

Plug one end of the provided power adapter into the DC 12 V port of the AP and the other end to a standard electrical wall outlet.

Method 2: PoE Switch

Connect an Ethernet cable from the PoE switch to the PoE IN port.

Method 3: PoE Adapter

Connect an Ethernet cable from the PoE IN port of the AP device to the PoE port of the PoE adapter.

2 Software Configuration

Choose from the following methods to configure your APs.

Method 1: Standalone AP

To configure and manage AP on its own management web page.

Note:

- Before you start, be sure to power up and connect your devices according to the topology figure.
- A DHCP server (typically a router with DHCP function enabled) is required to assign IP addresses to the APs and clients in your local network.
- If the router you use is a Cudy mesh WiFi router, then the access point will auto work as an add-on mesh unit and share the same WiFi network name(SSID) and password with the Cudy router you connect.

- Connect wirelessly by using the default Wi-Fi name (SSID) printed on the bottom label of the product.

- Launch a web browser and enter <http://cudyap.net/> in the address bar. Create a password to log in.

LED, Button and Port

LED	Off	
	Flashing Red	
	Blue	
	Flashing blue	
	Yellow	
	Flashing yellow	
	Red, blue, and yellow alternate	
RESET Button	Press for 2 seconds to restore the factory defaults. The LED will flash until rebooting.	
SFP Port (for AP6500)	Connect to a gigabit (1G/2.5G/5G/10G) optical module for higher data transmission speed, up to 10Gbps.	
PoE OUT Port (for AP3600)	Disabled by default. Enable PoE passthrough on the management web page to supply power for other PoE device.	

- Follow the step-by-step instructions to finish the Quick Setup.

Method 2: Work with a Controller

To configure and manage APs on the management web page of the main device.

The AP will be adopted into the Mesh network, and use the same Wi-Fi network name and password as the main device (Cudy Controller or Mesh Router).

Note:

If the AP was configured before, press and hold the RESET button for 2~3 seconds to restore the factory defaults.

Hardware Installation

Scan QR code or visit <https://www.cudy.com/apxz> for the hardware installation manual.

WEEE

According to the EU Directive on Waste Electrical and Electronic Equipment (WEEE - 2012/19 / EU), this product must not be disposed of as normal household waste.

Instead, they should be returned to the place of purchase or taken to a public collection point for recyclable waste. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. For more information, please contact your local authority or the nearest collection point. Improper disposal of this type of waste may result in penalties according to national regulations.
